

TARGET OF FEDERAL INSPECTORS

Cap't Harry Pedersen of Death Ship Eastland, on Whom Testimony of Steam Inspectors would Fix Guilt.

EASTLAND MOVIES BARRED

Moving pictures of the Eastland horror will not be shown in Chicago. This was the decision of the mayor's committee of three after all of the films were shown the censors.

"The committee is of the opinion that out of regard for the wishes and feelings of those who have suffered deep bereavement these moving pictures should not be exhibited," the report of the committee read in part.
